Title: Possibilities of immunocorrection in COVID-19 therapy of patients on an outpatient basis

Liasian Mukhamadieva, Ufa, Russian Federation

Past Event Report

About Past Event:

Scientex Conference successfully hosted its first series on the “**International Webinar on ENT: Head and Neck Surgery**” during **May 23–24, 2023**. The conference was organised with a theme focused on “**Emerging Techniques and Advancement in ENT, Head, and Neck Surgery**” and it was a great success where eminent keynote speakers from various universities addressed the gathering.

The generous response and active participation of the organizing committee members played a major role in the success of ENT 2023. On the other hand, we take the opportunity to thank all the speakers, delegates, and participants for providing their valuable support and time for the conference.

Through this conference, we created a global, international networking platform with experts from more than 30 different countries. We had 50+ speakers, 15+ poster presentations, and 50+ attendees.

With the grand success of the ENT webinar, we are glad to announce our next upcoming conference, “**2nd International Webinar on ENT: Head and Neck Surgery**” which is going to be held on **May 23–24, 2024**.
