

WEBINAR PROGRAM

2nd International Webinar on

ENT: Head and Neck Surgery

May 23-24, 2024 | GMT+7 (Bangkok, Thailand)

Day 1: May 23, 2024 (Thursday)

Introduction: 11:00 - 11:20

	WEBINAR PRESENTATIONS
11:20 - 11:40	Title: Dilatation eustachian tuboplasty with a eustachian tube video endoscope and supporting balloon
	Shuhua Chen, Foshan Hospital of Southern Medical University, China
11:40 - 12:00	Title: Measuring cochlear implant satisfaction in adults with post-lingual hearing impairment: Satisfaction beyond communication abilities
	Sunder Bukya, University of Hyderabad, India
12:00 - 12:20	Title: A rare case report of impacted foreign body (Sewing Needle) in upper neck
	Himani Singh, Subharti Medical College, India
12:20 - 12:40	Title: Rosai Dorfman disease- A rare case report
	Prerana P, Mahadevappa Rampure Medical College, India
12:40 - 13:00	Title: Expectations on communication abilities, social skills, and academic achievements of children, and rehabilitation demands from cochlear implantation: Preoperative parental perspective
	S B Rathna Kumar, University of Hyderabad, India
13:00 - 13:20	Title: A study of benign Sino-nasal tumors in rural tertiary care hospital
	Namrata K Dhobale, Sudip Hospital, India
13:20 - 13:40	Title: Speech perception performance in sloping high-frequency hearing loss and frequency-lowering strategy in digital hearing aids: A case report
	Sunder Bukya, University of Hyderabad, India
13:40 - 14:00	Title: Knowledge, attitude, and practices regarding risk factors for otitis media among caretakers of children in Puducherry– A descriptive cross-sectional study
	Srivalli Chilakamarri, Indira Gandhi Medical College and Research Institute, India
14:00 - 14:20	Title: Modified alianza technique to improve the outcome of mild to moderate OSA
	Dumpala Vidyasagar, Apollo Hospitals, India
14:20 - 14:40	Title: Partial epiglottectomy procedure: Innovative approach for treating level 4 obstructive sleep apnea
	Dumpala Vidyasagar, Apollo Hospitals, India

Title: Occupational noise induced tinnitus: A review of auditory behavioural and electrophysiological evaluations Behieh Kohansal, Arak University of Medical Sciences, Iran Title: The efficacy of sedation for Auditory Brainstem Response (ABR) testing in pediatrics: Systematic review Tayyebe Fallahnezhad, Iran University of Medical Science, Iran Title: Predicting the tendency towards rhinoplasty based on obsessive compulsive personality disorder and body image Romina Tajally, Islamic Azad University, Iran Title: Angina bullosa hemorrhagica of the oral cavity: A case report Eman Alsheerawi, Dream Reem Medical Center, Bahrain Title: Maxillofacial reconstruction in patients with limited interincisal opening Natelie Powell, Carilion Dental Clinic, Virginia Tech School of Medicine, USA VIDEO PRESENTATION OES - VP01 Title: Eustachian tube function test of normal ear in patients with unilateral chronic otitis Minsung Kim, Pusan National University, South Korea E-POSTER PRESENTATIONS OES - EP01 Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asalel AL Hadi, Najran University, KSA OES - EP02 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asalel AL Hadi, Najran University, KSA OES - EP03 Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA			
Title: The efficacy of sedation for Auditory Brainstem Response (ABR) testing in pediatrics: Systematic review Tayyebe Fallahnezhad, Iran University of Medical Science, Iran Title: Predicting the tendency towards rhinoplasty based on obsessive compulsive personality disorder and body image Romina Tajally, Islamic Azad University, Iran Title: Angina bullosa hemorrhagica of the oral cavity: A case report Eman Alsheerawi, Dream Reem Medical Center, Bahrain Title: Maxillofacial reconstruction in patients with limited interincisal opening Natelie Powell, Carilion Dental Clinic, Virginia Tech School of Medicine, USA VIDEO PRESENTATION OES - VP01 Title: Eustachian tube function test of normal ear in patients with unilateral chronic otitis Minsung Kim, Pusan National University, South Korea E-POSTER PRESENTATIONS OES - EPO1 Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EPO2 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA UES - EPO3 Waleed Khalid Alghuyaythat, Mjmaah University, KSA	14:40 - 15:00		
Tayyebe Fallahnezhad, Iran University of Medical Science, Iran Title: Predicting the tendency towards rhinoplasty based on obsessive compulsive personality disorder and body image Romina Tajally, Islamic Azad University, Iran Title: Angina bullosa hemorrhagica of the oral cavity: A case report Eman Alsheerawi, Dream Reem Medical Center, Bahrain Title: Maxillofacial reconstruction in patients with limited interincisal opening Natelie Powell, Carilion Dental Clinic, Virginia Tech School of Medicine, USA VIDEO PRESENTATION OES - VP01 Title: Eustachian tube function test of normal ear in patients with unilateral chronic otitis Minsung Kim, Pusan National University, South Korea E-POSTER PRESENTATIONS OES - EP01 Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EP02 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA Waleed Khalid Alghuyaythat, Mjmaah University, KSA		Behieh Kohansal, Arak University of Medical Sciences, Iran	
15:20 - 15:40 Title: Predicting the tendency towards rhinoplasty based on obsessive compulsive personality disorder and body image Romina Tajally, Islamic Azad University, Iran 15:40 - 16:00 Title: Angina bullosa hemorrhagica of the oral cavity: A case report Eman Alsheerawi, Dream Reem Medical Center, Bahrain 16:00 - 16:30 Title: Maxillofacial reconstruction in patients with limited interincisal opening Natelie Powell, Carilion Dental Clinic, Virginia Tech School of Medicine, USA VIDEO PRESENTATION OES - VP01 Title: Eustachian tube function test of normal ear in patients with unilateral chronic otitis Minsung Kim, Pusan National University, South Korea E-POSTER PRESENTATIONS OES - EP01 Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EP02 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA	15:00 - 15:20		
Personality disorder and body image Romina Tajally, Islamic Azad University, Iran 15:40 - 16:00 Title: Angina bullosa hemorrhagica of the oral cavity: A case report Eman Alsheerawi, Dream Reem Medical Center, Bahrain 16:00 - 16:30 Title: Maxillofacial reconstruction in patients with limited interincisal opening Natelie Powell, Carilion Dental Clinic, Virginia Tech School of Medicine, USA VIDEO PRESENTATION OES - VP01 Title: Eustachian tube function test of normal ear in patients with unilateral chronic otitis Minsung Kim, Pusan National University, South Korea E-POSTER PRESENTATIONS OES - EP01 Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EP02 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA		Tayyebe Fallahnezhad, Iran University of Medical Science, Iran	
15:40 - 16:00 Title: Angina bullosa hemorrhagica of the oral cavity: A case report Eman Alsheerawi, Dream Reem Medical Center, Bahrain 16:00 - 16:30 Title: Maxillofacial reconstruction in patients with limited interincisal opening Natelie Powell, Carilion Dental Clinic, Virginia Tech School of Medicine, USA VIDEO PRESENTATION OES - VP01 Title: Eustachian tube function test of normal ear in patients with unilateral chronic otitis Minsung Kim, Pusan National University, South Korea E-POSTER PRESENTATIONS OES - EP01 Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EP02 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA OES - EP03 Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA	15:20 - 15:40		
Eman Alsheerawi, Dream Reem Medical Center, Bahrain Title: Maxillofacial reconstruction in patients with limited interincisal opening Natelie Powell, Carilion Dental Clinic, Virginia Tech School of Medicine, USA VIDEO PRESENTATION Title: Eustachian tube function test of normal ear in patients with unilateral chronic otitis Minsung Kim, Pusan National University, South Korea E-POSTER PRESENTATIONS OES - EPO1 Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EPO2 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA		Romina Tajally, Islamic Azad University, Iran	
16:00 - 16:30 Title: Maxillofacial reconstruction in patients with limited interincisal opening Natelie Powell, Carilion Dental Clinic, Virginia Tech School of Medicine, USA VIDEO PRESENTATION Title: Eustachian tube function test of normal ear in patients with unilateral chronic otitis Minsung Kim, Pusan National University, South Korea E-POSTER PRESENTATIONS OES - EPO1 Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EPO2 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA	15:40 - 16:00	Title: Angina bullosa hemorrhagica of the oral cavity: A case report	
Natelie Powell, Carilion Dental Clinic, Virginia Tech School of Medicine, USA VIDEO PRESENTATION Title: Eustachian tube function test of normal ear in patients with unilateral chronic otitis Minsung Kim, Pusan National University, South Korea E-POSTER PRESENTATIONS OES - EPO1 Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EPO2 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA OES - EPO3 Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA		Eman Alsheerawi, Dream Reem Medical Center, Bahrain	
VIDEO PRESENTATION Title: Eustachian tube function test of normal ear in patients with unilateral chronic otitis Minsung Kim, Pusan National University, South Korea E-POSTER PRESENTATIONS OES - EPO1 Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EPO2 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA OES - EPO3 Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA	16:00 - 16:30	Title: Maxillofacial reconstruction in patients with limited interincisal opening	
OES - VP01 Title: Eustachian tube function test of normal ear in patients with unilateral chronic otitis Minsung Kim, Pusan National University, South Korea E-POSTER PRESENTATIONS OES - EPO1 Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EPO2 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA OES - EPO3 Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA		Natelie Powell, Carilion Dental Clinic, Virginia Tech School of Medicine, USA	
OES - EPO1 OES - EPO1 Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EPO2 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA	VIDEO PRESENTATION		
E-POSTER PRESENTATIONS Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EPO2 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA OES - EPO3 Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA	OES - VP01	-	
OES - EPO1 Title: The prevalence and awareness of congenital external ear deformity among primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EPO2 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA OES - EPO3 Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA		Minsung Kim, Pusan National University, South Korea	
primary school children in Najran, Saudi Arabia: A cross-sectional study Asaiel AL Hadi, Najran University, KSA OES - EPO2 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA OES - EPO3 Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA		E-POSTER PRESENTATIONS	
OES - EPO2 Title: Awareness and practice of Najran University students towards common problems related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA	OES - EPO1		
related to ear, nose, and throat Asaiel AL Hadi, Najran University, KSA Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA		Asaiel AL Hadi, Najran University, KSA	
OES - EP03 Title: Outcomes of cochlear implantation in patients with autoimmune inner ear disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA	OES - EPO2		
disease: A systematic review Waleed Khalid Alghuyaythat, Mjmaah University, KSA		Asaiel AL Hadi, Najran University, KSA	
	0ES - EP03		
Day 1 Concludes		Waleed Khalid Alghuyaythat, Mjmaah University, KSA	

Day 2: May 24, 2024 (Friday)

Introduction: 17:00 - 17:20

	WEBINAR PRESENTATIONS
17:20 - 17:40	Title: Effectiveness of steroids therapy in preserving residual hearing after cochlear implantation: A systematic review and meta-analysis
	Dhay Alrashid, King Saud bin Abdulaziz University for Health Sciences, KSA
17:40 - 18:00	Title: Assessing quality of life for pediatric tracheostomy patients and their caregivers in Saudi Arabia: A cross-sectional study using the PTHSI (Pediatric Tracheotomy Health Status Instrument)
	Moath Alfaleh, ENT resident at King Fahad Specialist Hospital, KSA
18:00 - 18:20	Title: Effectiveness of exclusive trans-canal Endoscopic Ear Surgery (EES) for treatment of cholesteatoma limited to attic region: A systematic review and meta-analysis
	Dhay Alrashid, King Saud bin Abdulaziz University for Health Sciences, KSA
18:20 - 18:40	Title: Endoscopic and histological evaluation of the effectiveness of the use of olfactory lining mesenchymal stem cells in the treatment of chronic polyposis rhinosinusitis: Results of a short-term follow-up
	Anastasiya A. Nidzelko, The Republican Centre for Research and practice in Otolarnygology, Belarus
18:40 - 19:00	Title: Outcomes of paramedian forehead flap for reconstruction of large nasal defects
	Hanan A Dowoud, Menoufia University, Egypt
19:00 - 19:20	Title: Validity and reliability of the Skarzynski Tinnitus Scale (STS) in Turkish
	Bahar Baba, Ege University, Turkey
19:20 - 19:40	Title: Results of a prospective, single-arm study of 1,351 patients with hiatal hernia operated on exclusively with anatomical hiatus reconstruction
	Eckhard Lohde, Berlian Centre for Hernia and Reflux Surgery, Austria
19:40 - 20:00	Title:Effects of different processing techniques on the chemical composition of cocoyam (Colocasia esculenta (L.) Schott) inflorescence, hematological and histopathological parameters of albino rats
	Kalu Emmanuel Okechukwu, University of Nigeria Nsukka, Nigeria
20:00 - 20:20	Title: Per-operative discovery of tympanic paraganglioma: A case report
	MINKA NGOM Esthelle Genevieve Stephanie, University of Douala, Cameroon
